BUSINESS ANALYST

A BIT ABOUT US

We are an award-winning Canadian technology company founded in 2016, enthusiastic about smart communities, and we are pretty proud of having created the segment in Canada. Our innovative and proprietary IoT based solutions connect hundreds of smart homes together through a dedicated network to create a smart technology platform that enhances the experience and quality of life for homeowners in multi-unit residential buildings.

Our product has created quite the buzz, so we need to add a **Business Analyst** who shares our passion for innovative technology, social impact for good, and the thrill of helping companies grow.

Responsibilities

- Incorporate and explore features in the backlog.
- Groom and prioritize the backlog.
- Develop and define user stories.
- Define acceptance criteria.
- Work with senior staff to define sprint goals.
- Collaborate with stakeholders and clients.
- Gather and convey business requirements to the development team.

Requirements

- Excellent written and verbal communication skills
- Excellent organization skills

- Familiarity with agile practices
- Knowledge in business requirements gathering and definition.
- 4-5 years experience in a similar role.

Nice To Have

- Technical background with knowledge of software development and web technologies
- Understanding of Cloud Based systems.
