## ???????Pusiness Analyst, Supply Chain

## **Description**

Location: Brampton, Ontario

Job Description:

At Pet Valu we understand that your pet is a part of the family, because we're devoted pet lovers too. We have been providing pets with everything they need to live healthy, happy and active lives for more than 40 years.

Our employees are the key to our success! As a growing organization, our employees apply their creativity and innovative ideas as they take ownership of their projects and growth. We pride ourselves in providing an open environment by managing with approachability and providing support to allow for career development.

From distribution centers to stores to home office, we're supporting pets and their owners, and together we're making a difference!

What is the role?

Reporting into our Warehouse Systems Manager, the primary focus of the Business Analyst role is to support our Supply Chain strategy and systems to optimize our growing Pet Valu network.

Successful candidate will build and foster partnerships across the organization while supporting excellence for our Supply Chain team(s). An effective communicator with an ability to collaborate with all levels of the organization. Utilizing analysis, critical thinking, aligning with best Supply Chain practices and in sync with our Supply Chain systems, strategy, team culture and Pet Valu community. Business Analyst – Supply Chain role is for a someone who is passionate about delivering operational excellence, helping our teams to unlock new capabilities to improve our processes and systems and supporting key growth projects with an overall belief in being a part of something bigger.
