Business Systems Analyst with Big Data Experience

Hiring organization
INTS Consulting

Description

We have an exciting opportunity for the right person. Are you a Business Systems Analyst with a strong technical focus, Big Data and AML / Fraud experience?

Date posted
2023-07-07

We are looking for you. You will be working with one of the top Canadian banks and have an integral role in their new data strategy.

Work you will do

- You will work directly with clients and team members to collect, analyze and document business requirements
- You will be a leader in translating business requirements into technical requirements
- You will write user stories in JIRA and document systems requirements in Confluence
- You will create SQL queries for data profiling

Your Skills:

- Strong skills in data mapping, analysis, profiling, and an understanding of end to end data flow, data modelling and data lineage
- Experienced working with SQL
- Experience working with complex business logic for ETL
- Experience with data elicitation
- Experienced with developing work flow, data flow, data model diagrams and process flow diagrams
- Familiar with developing reports such as BRD, SRD, DRS
- Experience with Big Data concepts, working with Hadoop, Hive, Netezza

Who you are:

- Prior work experience in a bank or financial services industry a strong asset
- Experience with AML / Fraud / Cyber Security a strong asset
- You are an independent worker
- An excellent communicator not afraid to speak up
- You have a proven ability to work creatively in a problem solving environment
- You have the ability to dive into data and see the details
- Experience with both Agile and Waterfall development methodologies

Job Type: Full-time

Ability to commute/relocate:

- Toronto, ON M5J 0E7: reliably commute or plan to relocate before starting work (required)

Work Location: Hybrid remote in Toronto, ON M5J 0E7
