INTS CONSULTING - Junior QA Analyst

Description

ATTENTION RECENT GRADUATES!!! WE ARE LOOKING FOR A SUPERSTAR GRAD TO LEARN AND GROW WITH OUR TEAM!

Aareas Interactive is a PropTech company that focuses on creating epic home-buying experiences. Our platform allows people to shop, purchase, and make selections using photorealistic virtual homes, communities, and virtual design centers, online or in person.

PURPOSE

The QA Analyst is expected to have deep Product knowledge with a focus on its quality needs, leveraging both manual and automated tests to meet those needs. The QA Analyst will participate in feature requirement discussions/estimations, plan/document/execute test scenarios, maintain and expand automation coverage, uphold and improve QA process, and participate in all relevant stages of a Sprint cycle, ensuring timelines and high QA standards in an Agile environment.

KEY RESPONSIBILITIES

The key responsibilities of this role include, but are not limited to:

- Leads and participates in efforts to define, implement and maintain a standard business architecture framework for the company ensuring that a consistent approach to business analysis and specifications are followed, and that solutions are defined, within the context of the overall framework and long-term business vision.
- Manage test plan, Knowledge Base and other documentation.
- Manage business requirement and specification delivery, ensuring consistency with the company business process framework.
- Test web applications, functional testing, integration testing and load testing of applications along with database input.
- Analyzes test results to ensure existing functionality and recommends corrective action.
- Assists developers in identifying program and or system errors.
- Identifies potential design flaws and refers to development team for resolution
- Act as a Quality Assurance Engineer to staff in all phases of the development and implementation process, assisting with documentation and support implementation efforts
- Responsible, as a BA/ QA Team Leader to ensure team acquires detailed
